

Winterization Information

Bronze Sterndrive Winterization: 1.4 hours/\$210 + materials

- Stabilize fuel, change water separating fuel filter, drain all water from the engine block, manifolds, sea water pump, and power steering cooler, check for water in lower unit gear lube (not on water).
- Fill engine block and manifolds with non-toxic antifreeze. Fog engine if carbureted engine. Check all fluid levels.

Silver Sterndrive Winterization: 2.5 hours/\$375 + materials

- Stabilize fuel, change water separating fuel filter, drain all water from the engine block, manifolds, sea water pump, and power steering cooler. check for water in lower unit gear lube (not on water)
- Fill engine block and manifolds with non-toxic antifreeze. Fog engine if carbureted engine. Check all fluid levels.
- Change engine oil and oil filter

Gold Sterndrive Winterization: 4.0 hours/\$600 + materials **(September Only)**

- Level 3 winterizations cannot be completed on water. Must bring the boat to the shop. Extra fee's may apply if we have to pick up and deliver using shop trailer.
- Stabilize fuel, change water separating fuel filter, drain all water from the engine block, manifolds, sea water pump, and power steering cooler.
- Fill engine block and manifolds with non-toxic antifreeze. Fog engine if carbureted engine. Check all fluid levels.
- Change engine oil and oil filter
- Drain and remove outdrive from the boat, check engine alignment, U-joints, gimbal bearings, and bellows. Reinstall outdrive, fill with gear lube. check for water in lower unit gear lube.

Silver 2-stroke Outboard Winterization: 1 hours + materials

- Add fuel treatment, check all fluid levels. check for water in lower unit gear lube (not on water)

Gold 2-stroke Outboard Winterization: 1.5 hours + materials

- Add fuel treatment, check all fluid levels
- Gear lube service: Drain gear lube from lower unit. Check for water in lower unit gear lube. Fill lower unit with new gear lube.
- **Bronze 4-stroke Outboard Winterization:** 1 hour + materials
- Add fuel treatment, check all fluid levels. check for water in lower unit gear lube (not on water)

Silver 4-stroke Outboard Winterization: 2 hours + materials

- Add fuel treatment, check all fluid levels. check for water in lower unit gear lube (not on water)
- Change oil and oil filter

Gold 4-stroke Outboard Winterization: 2.5 hours + materials (not on water)

- Add fuel treatment, check all fluid levels
- Change oil and oil filter
- Gear lube service: Drain gear lube from lower unit. Check for water in lower unit gear lube. Fill lower unit with new gear lube.

Silver PWC Winterization: 1 hours + materials

- Stabilize fuel, remove water from engine. Start, run, and fill the block with non-toxic antifreeze.

Ballast/Freshwater Winterization: .5 hours + materials

- Drain water and fill with non-toxic antifreeze

Central Crossing Marine is not responsible for boats or engines from freeze damage if the customer calls after the first below freezing temperature occurs. NO EXCEPTIONS.

Service Calls

A Minimum service call of \$150 will be charged to each customer. Price will be determined by the location of your boat on the lake. **Lower unit will not be checked for water if boat is winterized on boat lift**

- ❖ Any customer getting at least **4** boats to winterize the same day/same dock will split **1** service call.
- ❖ Any customer who gets 5 or more boats on the same day/same dock will not be charged a service call.

➤ *These discounts do not apply to commercial docks.*

Water Systems & Generators- These items will be winterized with antifreeze but at an additional cost (actual hours + supplies)

Marine Toilets & Waste Water Holding Tanks- Central crossing marine **WILL NOT** be responsible for these items at winterization time. The customer is responsible for these items.

Dead Battery/No Keys Charge- Battery must be charged and keys must be provided for the boat and the boat lift in order to winterize the boat properly. If the battery is dead or we have no keys to the boat/lift, there will be a \$25.00 fee for having to wire the boat or use our battery to get the boat started.

Common Winterization Materials and Prices

Part Name	Part Number
Merc oil filter	866340Q03
Fuel/water filter	802893Q01
Volvo oil filter - canister style	8692305
Volvo oil filter - spin-on	835440
Volvo fuel filter	3862228
Fuel stabilizer	8M0047932
Non-toxic antifreeze	NON TOX
Fogging Oil	858081K03

Central Crossing Marine is not responsible for boats or engines from freeze damage if the customer calls after the first below freezing temperature occurs. NO EXCEPTIONS.
